Sept 22nd, 21:00-22:00

- We scheduled a call to split up the tasks for Sprint 1 and to discuss which technologies we wanted to use (front-end: React, back-end: Python, database: SQL). The tasks have been divided as such:
- GitHub Setup: Hatem
- Team Process Definitions: Cristina
- Sprint Planning: All members
- README File: Mujdeh and Ariana
- Meeting Minutes: Ariana
- User Registration/Login: frontend Alexi, backend Parsa, database Mujdeh
- User Profile Management: frontend Cristina, backend Ariana, database Hatem
- Attendance: All members were present except Parsa.

Sept 23rd, 18:00-19:30

- We scheduled a meeting to update progress and ask any questions that we had. We also decided to each come up with a user story, and choose 5 out of 6. Issue template was created and each member's issues will be added on the repository and the corresponding development board. Branching protocol, and pull request protocol was agreed on.
- Sub teams created and developed roles assigned for each member.
- Attendance: All members were present except Mujdeh.

Sept 27, 19:30-20:20

- Finalized Sprint 1 and discussed what was left to complete for the deliverables.
- Attendance: All members.
